INTRODUCTION

Background

In October 2001, the Seminole County Board of County Commissioners (BCC) established the Job Growth Incentive Program (JGI). The program requirements are included in the Code of Ordinances, Chapter 18.

Deloitte Consulting LLP, (Deloitte), with headquarters in New York City, applied for a JGI award. Seminole County (County) approved their application and signed formal agreements. The two (2) agreements noted below were approved to create new employment opportunities and, also, encourage the company to financially invest in the county.

1.) Initial Agreement (Phase I) was on April 18, 2015. This agreement provided for scheduled payments to Deloitte for up to One Million Seven Hundred Thousand and No/100 Dollars ($1,700,000) with the condition that Deloitte create One Thousand (1,000) permanent jobs (with average annual salary of $60,250); and, invest Fourteen Million Two Hundred Twenty Thousand and No/100 Dollars ($14,220,000) in machinery, equipment or tangible personal property, and pay for annual lease payments of a 130,000 square foot facility.

2.) Follow-up Agreement (Phase II) on November 22, 2016. This agreement provided for scheduled payments to Deloitte for up to One Million Twenty Thousand and No/100 Dollars ($1,020,000) with the condition that Deloitte create Eight Hundred Fifty (850) permanent jobs (with average annual salary of $70,056); and, invest Five Million Seven Hundred Fifty-Six Thousand and No/100 Dollars ($5,756,000) for a three year lease of a 70,000 square foot facility; and, also pay for new machinery, equipment and/or tangible personal property.

The review that follows includes a verification that there is compliance with the terms of the contracts.
Objectives of Review

This special review was performed to determine compliance with the terms and conditions of the job growth incentive program agreement, and applicable rules, laws and regulations.

Scope and Methodology

The scope of this limited review included the following:

- The JGI agreements between the company and the county;
- The County’s Code of Ordinances, policies, procedures and other applicable laws, and regulations;
- Examination of company’s annual performance reports and its supporting payroll, investment and other documentation;
- Research online to see company’s profile, status, corporate public filings and property construction and acquisition; and,
- Interview of employees.
Overall Evaluation

Deloitte is in compliance with terms of the agreements, Phase I and Phase II.

Jobs Created:

As of July 2018, Deloitte has created 1,851 permanent jobs requirement with an average annual salary of $89,207, compared to $64,755 required average salary. This satisfies the requirement of the two contracts.

Additionally, Deloitte utilizes state, regional, and local resources to source, recruit and hire employees in Seminole County. The company engages web based tools like Orlandojobs.com, Meetup.com and EmployFlorida.com which is a web engine of CareerSource Central Florida. At the local level, job announcements and vacancies are advertised on radios, Seminole State College, and universities such as UCF and USF. They sponsor internship and scholarship programs. On November 5, 2018, Deloitte has 47 job postings at EmployFlorida.com for Lake Mary location, and recruiting for IT, HR, engineers, finance, customer and marketing specialists.

Capital Investments:

For the two projects, the company is required to invest $20 million by December, 2018. As of October, 2018, Deloitte has invested at least $35 million by leasing two facilities (with a total of 287,697 square feet). This includes renovation cost, relocating employees to Lake Mary, and, purchasing furniture and fixtures, as well as installing new machinery and equipment. We verified that the lease contracts and capital expenditures were reasonable.
The following illustrates compliance by Deloitte of the terms and conditions of the contracts.
