INTRODUCTION

Background

In October 2001, the Seminole County Board of County Commissioners (BCC) established the Job Growth Incentive Program (JGI) to remain competitive by offering financial incentives to attract new businesses or encourage the expansion of the existing businesses.

Florida Marking Products, LLC, manufactures several products which include: advertising specialty items; label and packaging solutions; front-page advertising products for newspapers; and, industrial identification system.

On August 30, 2013, the company received a Fifty Thousand and No/100 Dollar ($50,000) incentive award from the county.

The Florida Marking Products, LLC as the grantee agreed to the following:

- Create 25 new permanent jobs with an average annual salary of $39,400;
- Spend $976,000 in lease, renovations, equipment and relocation expenses;
- Provide a performance bond or letter of credit for $50,000 as security;
- Report job creation and investment annually for five years; and,
- Announce job vacancies locally, and to Workforce Central Florida and Community Services Department.

Objectives of Review

The review was performed to determine compliance with the terms and conditions of the job growth incentive program agreement, and applicable rules, laws and regulations.
Scope and Methodology

The scope of this limited review included the following:

- The JGI agreements between the company and the county;
- The County's Code of Ordinances, policies, procedures and other applicable laws, and regulations;
- Examination of company's annual performance reports and its supporting payroll, investment and other documentation;
- Research online to see company's profile, status, corporate public filings and property construction and acquisition; and,
- Interview of employees.

Overall Evaluation

Florida Marking Products, LLC has created thirty (30) permanent jobs with an estimated average annual salary of $34,423. This was accomplished over a five (5) year period from August, 2013 through August, 2018. We calculated the estimated average annual salary by taking the employees' standard hourly rate per hour for a forty (40) hour work week.

The company also paid overtime. By applying the overtime pay to the employees' base pay for the top paying twenty-five (25) permanent jobs, the estimated average annual salary is $39,770. This satisfies the contract requirement of twenty-five (25) permanent jobs with an average annual salary of $39,400.

The company's initial JGI application to the county proposed to create twenty-five (25) full-time jobs over a five (5) year period. Although, it was noted that the company is a little behind the original three (3) year contract schedule, the company has taken steps to be in full compliance as all the jobs were created over five (5) years. Thus, it is our opinion, the Florida Marking Products, LLC is in compliance with the terms of the contract.
The company has leased a 17,125 square foot facility; renovated; relocated; purchased; and, installed new machinery and equipment. The cost of these capital improvements was $1,789,982. This exceeded the requirement that they spend $976,000 on capital investment. A performance bond from Cincinnati Insurance Company for $50,000 was provided to the county, and, the company has submitted five (5) Annual Performance Reports.

The company should notify the Community Services Department and Workforce Central Florida of all job vacancies, and, it should advertise locally. This is a contract requirement.

The following summary illustrates compliance by Florida Marking Products, LLC of the terms and conditions of the contract.

### Summary of Contract Compliance
